SUBJECT: TIRNO-95-D-0067, TIRNO-95-D-00048, and TIRNO-98-R-00001
Report on Examination of Direct and Indirect Costs and Rates for
Fiscal Year Ended December 24, 1999 (Audit #200310002.002)

The Defense Contract Audit Agency (DCAA) has examined the contractor's United States Federal Government Group's October 31, 2001, certified final indirect cost rate proposal and related books and records for reimbursement of Fiscal Year 1999 incurred costs. The purpose of the examination was to determine the allowability and allocability of direct and indirect costs and recommended Contracting Officer determined indirect cost rates for December 19, 1998, through December 24, 1999. The proposed rates apply primarily to flexibly-priced contracts.

The DCAA questioned claimed labor overhead and general and administrative (G&A) expenses. The questioned costs are the results of the contractor not removing identified unallowable costs from the overhead pool and overstating indirect labor overhead allocations and home office allocations within the G&A pool. Also, the DCAA applied an upward adjustment to the G&A base. This upward adjustment is the result of the contractor understating overhead and commercial costs that are part of the G&A base.

The DCAA stated that except for the qualification discussed below, the contractor's proposed indirect rates are acceptable as adjusted by their examination. Additionally, claimed direct costs are acceptable and are provisionally approved pending final acceptance.

The DCAA has not received the results of assist examinations for subcontract costs. Therefore, the DCAA qualified its audit report because these examinations may disclose additional questioned costs.

The information in this report should not be used for purposes other than that intended without prior consultation with the Treasury Inspector General for Tax Administration regarding its applicability.
